

Camp Storage

We store our gear in four shipping containers and two trailers, which live in Reno, Nevada and come to playa with us every year.

ID and Name	What is it?	What's it for?	Where is it stored? (*) *Location Details
FT1 - the bike fort	20' Shipping Container (Deck on top)	Camp bikes	A
FT2 - the tool fort	20' Shipping Container (Deck on top)	Tools and supplies	A
FT3 - the canteen	20' Shipping Container	New for 2026 - Public and private camp furnishings On playa: snacks and meal grab-and-go	A
FT4 - Habitat	20' Shipping Container	New for 2026 - Tents and shade structures	A
GTM - the pillow fort	24' Bumper Pull Trailer	Public camp furnishings On playa: air conditioned nap & sex space	A
The food fort	24' Bumper Pull Trailer	Commercial kitchen	B
The Gayflower (retired)	53' Semi Trailer	Water tanks, showers, and restrooms	C
The Empire Fort (retired)	25' Semi Trailer	Storage	C

Bike Fort

The Bike Fort stores about 50 camp bikes on two levels. The deck between the levels is made of wood planks that have been taken out and used to construct utility tables behind the bar using four sawhorses as supports in the Bike Fort.

For simplicity, literally everything bike-related is stored here: tools, spare parts, camper bikes that we are storing for the next year, and a trailer for getting ice.

The Bike Fort and Tool Fort have plywood decking on top to create an observation deck. The observation deck uses special 1-3/8" pipes (different size than the rest of our shade) to create a frame with steel wire guardrails. There is a 53' wide shade that goes between the observation decks providing shade for the Turtle Café, and two ladders for getting up and down. These are all stored in the bike fort.

Always be careful not to mix the observation deck pipes and fittings with the camp habitat pipes and fittings; they are different thicknesses!

Also stored in the bike fort in 2026:

- An antenna mast which might be used for a turtle sign (tbd)
- The 2025 DJ booth, which has been disassembled and would take some work to reassemble and use

Once the bikes have been removed from the Bike Fort on playa, it will have room to store things like empty totes that won't be needed during the event.

Tool Fort

Our famous tool fort stores everything that we need access to grab and use on playa. It has hundreds of items on shelves on the left and in drawers on the right. Here are the major categories of items you'll find there:

- First aid kits, narcan, and defibrillator
- A huge selection of tools of every type
- Chargers for all the power tools
- Plumbing equipment
- Signs
- Our whole electrical distribution system consisting of 24 spider boxes and tons of 50 amp cables to connect them
- Supplies/consumables
- Camper comfort items if someone forgot something crucial

The tool fort is actively used throughout build week, event week, and strike. It should be plugged into 120V for lighting and tool chargers.

Keep the aisle of the tool fort free and clear at all times, so it is easy to access anything.

Canteen

New for 2026!

During event week, the canteen will be set up as a place for campers to pick up grab-and-go meals and snacks, and cook their own more elaborate snacks. There will be a glass-front refrigerator, metro shelving with snacks, and tables set up for meal prep with a microwave oven.

The canteen has a double shower curtain that can be hung in front allowing easy entrance without too much dust getting in, so that the big container doors do not have to be opened and closed all the time. We will install an air conditioner to keep it cooler so that the fridge doesn't struggle.

Outside of event week, the canteen stores a lot of gear that is set up around camp.

This gear includes things like:

- Turtle café tables and chairs
- Turtle café bar and minibar
- The new shower
- Camper cubbies
- Folding tables and benches
- Burn barrels
- Propane grill
- The big whiteboard

Only store gear in the canteen that is completely taken out during event week, so that we can free space for food and snack prep.

The canteen also contains ten crates full of extension cords (for no logical reason, they just fit).

Canteen - Rear Storage Area

Anything the camp owns that is not going to be used on playa in any given year is stored in the back of the canteen, behind the extension cords. In 2026 that mainly includes:

- Extra audio and lighting gear
- Desert HIIT workout equipment

Habitat

New for 2026!

Everything needed to set up the entire camper living area:

- EMT structure:
 - Poles
 - Footers and connectors
 - Bungies, climbing hangers, and ratchet straps
 - Tarps and shade mesh

- Lag screws
- Shiftpods
- Cots
- Camp chairs and stools
- Welcome mats
- Hammocks
- Camper power points

Other tents are also stored here:

- The high-peak tent in front
- 20' and 16' Lotus Belle tents in the back rear

The Pillow Fort

During event week the pillow fort is set up as an air conditioned nap/sex area.

Only store gear in the pillow fort that is completely taken out during event week, so that we can set it up properly without moving a lot of stuff.

Contents:

- Pillow fort furnishings
- DJ gear and lighting
- Wicker chairs
- Rugs and cushions for Lotus Belle tent

Where is it?

The detailed [Where Is It?](#) spreadsheet helps you track down exact locations down to shelf and bin, especially of specific tools and items in the Tool Fort.

Camp Supplies

What we call "supplies" are anything consumable that we stock up on before each burn to have on hand: things like batteries, towels, cleaning supplies, and so forth. This does **not** include anything used by the food team.
