Bike fort organization - click to open

Bikes are organized in the container by Rows (1 / 2 / 3) and Level (Bottom / Top). As such a bike whose location is **3B** would be located at the rear of the container on the bottom level, while a bike whose location is **1T** would be at the front of the container on the top level.

Campers' bike storage

Camper	Type	Years stored	Bike fort place
Ben W	E-bike	2023, 2024	Front bottom

Kick Stands

In 2025, we're testing a few after-market kickstands to prevent the toppling bike problem. We did a try run test of 10 different kickstand styles during a summer 2025 work weekend to assess balance and ease-of-install (example 1, example 2). We narrowed it down to two models:

Lumintrail Center Mount Bike Kickstand - Fits 24-29 Inch Bicycles - Adult Mountain, Cruiser and Road Bike Kickstand - Quick Adjust Height

Schwinn Center or Rear Mounted Kickstand for Adult and Kids Bike, Lightweight, Convenient for Upright Storage, Bicycle Parts and Accessories, Perfect for Bikes Without Factory Mounting Plate
Visit the Schwinn Store

We'll order 3 of each and let campers install them as they wish. If successful, we'll install them all during a 2026 work weekend.

Revision #11
