# SHIFTS, EXPLAINED

## Morning LNT

Start 10:00 am

Clean up the camp in the morning

All night long people are partying, strangers are coming in and out of our camp, and hungry nosers are wandering into the kitchen and leaving a mess. The morning LNT team sweeps the whole camp to make sure it's clean and fresh and a delightful place to spend the day. They also get enough ice from Arctica to last us the whole day, and clean up the pillow fort.

Go  
through  
the checklist for  
each shift!
